Retail Lighting Upgrade

Harris Scarfe - 23 store retrofit

Multiple Harris Scarfe stores across Australia required a lighting retrofit solution that delivered reduced energy consumption and maintenance costs whilst significantly improving the overall lighting quality.

Continually improving
your lighting experience

“ Overall the project went very well. The lights look really good, the upgrade was definitely worth doing. Everyone that I spoke to from Aglo Systems was very professional and the installation team were well trained and efficient. ”

Leanne Holdings, Harris Scarfe Shepparton Store Manager

Harris Scarfe is one of Australia's top contemporary retail stores with 160 years of history and 55 stores across Australia. To respond to the needs for better lighting, energy saving and environment protection Harris Scarfe called on the expertise of Aglo Systems to provide cost effective lighting solutions for 23 of their sites. When designing the lighting for Harris Scarfe, Aglo recommended an LED solution to replace outdated and under-performing lights. A 5 year warranty on products and 3 year warranty on installation was included on the solution offered. Almost \$220,000 of government rebates were achieved for NSW and VIC sites.
