ORGANOID NATURAL SURFACES

Aglo Systems promise to continually improve our customers' experiences, sourcing not only the most current lighting products, but also the most unique. In an environment that is saturated with new technology, we have discovered a way to merge today's modern landscapes with natural surfaces. Furthering our aim to create more sustainable projects with a focus on natural materials, ORGANOID brand is a concept that brings together these elements.

These decorative coatings can give your office a sense of naturalness or your cafe a constant smell of fresh coffee, allowing you to achieve a feeling of comfort.

100% Sustainable, authentic and non-treated natural materials which can be customised for ornaments or architectural features such as lampshades, doors, chairs, cabinets, office facades... the possibilities are limitless!

Aglo Systems is a distributor for Australia & New Zealand.

SEE. FEEL. SMELL. EXPERIENCE.

LIGHTING DESIGN

Aglo Systems has extensive experience dealing with interior designers, architects, builders and electricians to ensure a positive outcome for all parties.

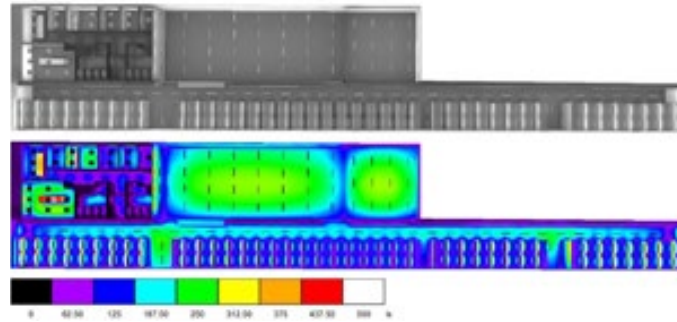

We will collaborate with your architects and/or interior designers to create a brief covering the lighting requirements, aims and emergency illuminated signage needs. We will also discuss the desired ambience and working environment to gain a full understanding of the type of space before putting together a Reflected Ceiling Plan.

As part of the process, we ensure that all lighting designs comply with the Building Code of Australia (BCA) and all other necessary Australian regulations.

Accenting Objects

30° is the perfect angle to efficiently illuminate an object and accent it using light and shadow. Shadowing caused by the observer are also diminished.

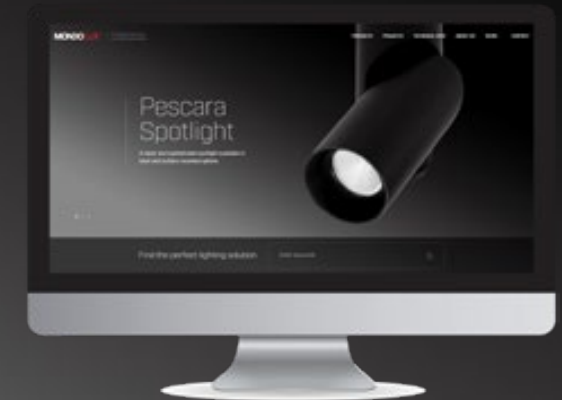

Lighting Design Renders

MONDO LUX™

mondolux.com

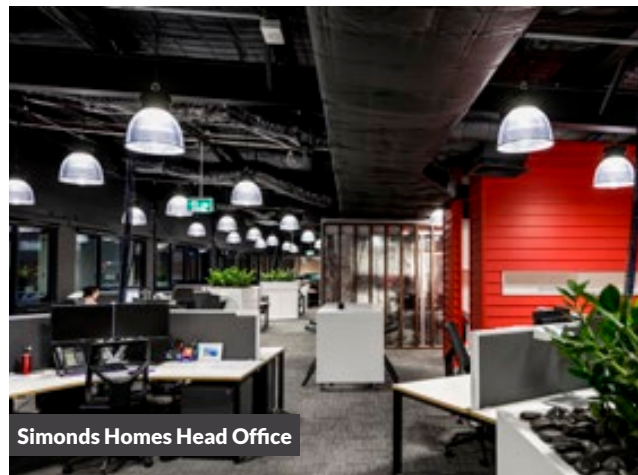

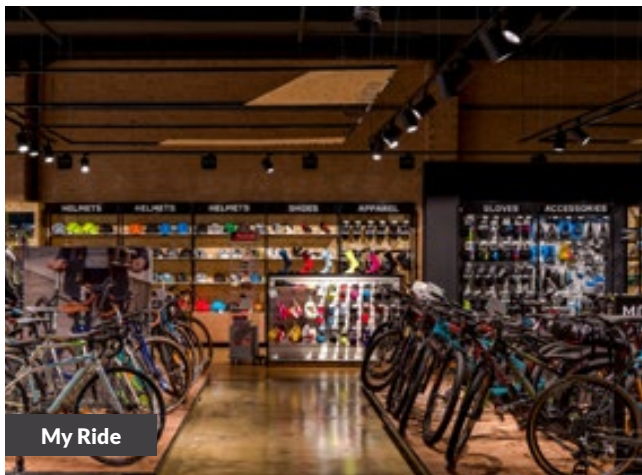

Mondolux is a new lighting brand developed by Aglo Systems. Through decades of combined work in the lighting industry, we understand the needs of the market and identified a gap in the current offering of lighting companies.

Mondolux brand showcases on-trend lighting products with the latest technology and guaranteed quality; making clear and simple the process of sourcing and specifying lighting.

Mondolux provides a multitude of technical information, turnaround times and downloadable resources through its website; with streamlined project management, delivery and after sales service.
