RETAIL LIGHTING SOLUTIONS

Aglo Systems has a proven track record working with many leading retailers, shopfitters, architects, designers, builders and electrical contractors. As specialists in the retail industry, we understand the unique requirements in illuminating window displays, POS pieces, shelving, counters, gondolas and fitting rooms. We provide a seamless process from lighting design and fitting specification to delivery.

Our services includes providing professional CAD documentation, BCA calculations and complete fitting specifications.

Some of our most recent Lighting Design & Fitting Supply projects include:

CUSTOM DESIGN & MANUFACTURE

Aglo Systems' Custom Design and Manufacture department has the capabilities and experience to turn unique concepts into reality. Our designers can help you with any design project, be it a luminaire or architectural fitting or feature.

Some of the services the team can offer are:

- Project management - *through entire project*
- Concept Development
- 3D CAD modeling design
- Photo realistic renders
- Prototyping
- Installation and manufacturing

The team has a combined 35 years of design experience across a variety of fields including lighting, furniture, hardware and signage.

Our diverse local and global supplier network enables us to deliver projects on any scale or budget to suit all of your needs.

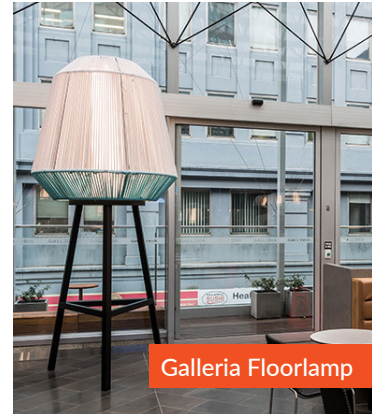

If you can dream it, we can build it.

ORGANOID NATURAL SURFACES

People feel more comfortable in a natural environment. After all, humans perceive the world through their senses. ORGANOID natural surfaces allow you to achieve this feeling of comfort capable of evoking strong emotions.

100% Sustainability, authenticity, closeness to nature & non-treated natural materials that can be customised for objects or furniture such as lampshades, doors, chairs, cabinets, office facades... possibilities are limitless!

Aglo Systems exclusive distributor for Australia & New Zealand.

SEE. FEEL. SMELL. EXPERIENCE.

MONDOLUX™

Mondolux is a new lighting brand developed by Aglo Systems. Through decades of combined work in the lighting industry, we understand the needs of the market and identified a gap in the current offering of lighting companies.

Mondolux brand showcases on-trend lighting products with the latest technology and guaranteed quality; making clear and simple the process of sourcing and specifying lighting.

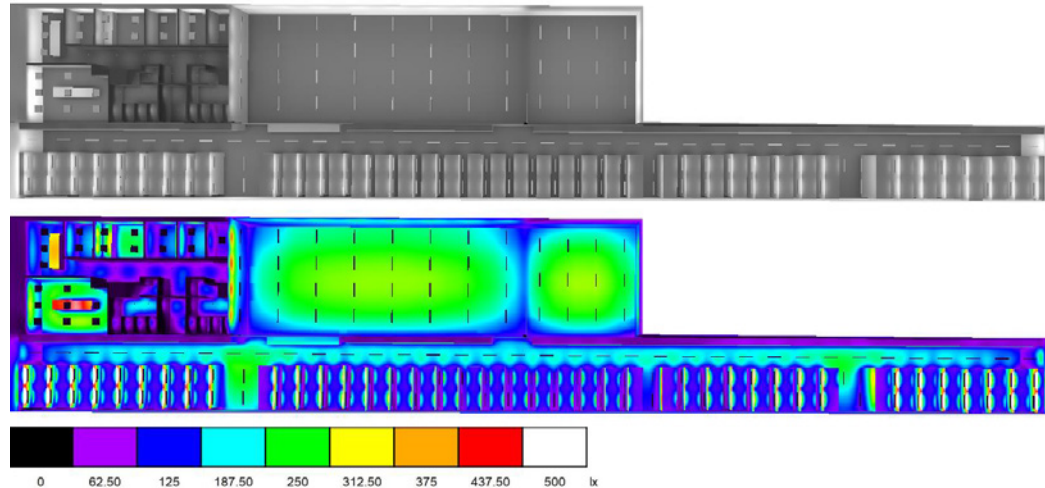

Mondolux provides a multitude of technical information, turnaround times and downloadable resources through its website; with streamlined project management, delivery and after sales service.

LIGHTING DESIGN

Aglo Systems has extensive experience dealing with interior designers, architects, builders and electricians to ensure a positive outcome for all parties.

We will collaborate with your architects and/or interior designers to create a brief covering the lighting requirements, aims and emergency illuminated signage needs. We will also discuss the desired ambiance and working environment to gain a full understanding of the type of space before putting together a Reflected Ceiling Plan. As part of the process, we ensure that all lighting designs comply with Building Code of Australia (BCA) and all other necessary Australian regulations.

Accenting Objects
30° is the perfect inclination angle to efficiently illuminate an object, accent it and benefit from a good modelling via light and shadow. Shadows caused by the observer are also avoided.
