LIGHTING  
SOLUTIONS

## Retail LED Lighting Provincial Home Living roll out

Aglo Systems' supplies LED downlights for Furniture and Homewares Chain.

*Continually improving  
your lighting experience*

“ I am very happy with the service Provincial Home Living has received from Aglo Systems over the last two years. They are always able to meet my required delivery dates whilst providing friendly, straight forward customer service. ”

Melissa Guthrie, Director - Detail Retail

## Opportunity

Provincial Home Living is a furniture and homewares retail chain with over 30 stores spread across the Australian east coast states. Aglo Systems have supplied LED light fittings for nine of the stores to date with a direct relationship with the client. Some have been new fitouts and others have been retrofit. The fittings supplied to each store vary from LED highbays to LED downlights and spotlights.

## Solution

For the Maroochydore QLD site, a general illumination was desired throughout the store. Thus, the adjustable Pivo Midi downlights in high CRI 90 for accurate colour rendering and 3000K warmth were requested.
