

## ■ Custom Design

Aglo Systems' Custom Design department create, manage and manufacture bespoke luminaires and architectural features, bringing your unique concepts into reality.

Services Covered:

- Project management
- Concept development
- 3D CAD modelling design
- Photo realistic renders
- Prototyping
- Manufacture
- Installation

Our portfolio of clientele ranges from boutique hospitality, apartment projects and exclusive resorts, to 6-star hotels and casinos. Our diverse local and global suppliers' network enables Aglo Systems to deliver projects on any scale or budget.

Our team of industrial, mechanical and product design engineers work with architects and designers to develop and produce artisan projects utilising a myriad of materials and manufacturing methods. With an exceptionally high attention to detail and customer service, the team are dedicated in delivering a quality custom product.

This folio is a collection of our favourite work over the years, demonstrating just a small window into our infinite engineering potential.
