

aglo™

Custom Design

Aglos' Custom Design department create, manage and manufacture bespoke luminaries and architectural features, bringing your unique concepts into reality.

Our portfolio of clientele ranges from boutique hospitality, apartment projects and exclusive resorts, to 6-star hotels and casinos. Our diverse local and global suppliers' network enables Aglo Systems to deliver projects on any scale or budget.

Our team of industrial, mechanical and product design engineers work with architects and designers to develop and produce artisan projects utilising a myriad of materials and manufacturing methods. With an exceptionally high attention to detail and customer service, the team are dedicated in delivering a quality custom product.

This folio is a compilation of recently completed projects, showcasing our design creativity and engineering expertise.

Services covered:

- Project management
- Concept development
- 3D CAD modelling design
- Photo realistic renders
- Prototyping
- Manufacture
- Installation
